For athletes, visualization process is called "mental rehearsal," and they have been using these exercises since the 1960s when we learned about it from the Russians. All you have to do is set aside a few minutes a day. The best times are when you first wake up, after meditation or prayer, and right before you go to bed. These are the times you are most relaxed.

~~Visualization Techniques to Manifest Desired Outcomes ...~~

Mental workouts also stimulate the sympathetic nervous system, which governs our fight-or-flight response and causes increases in heart rate, breathing, and blood pressure. So simply envisioning a movement elicits nervous-system responses comparable to those recorded during physical execution of the same action, says Guillot.
