(PDF) Alluvial geomorphology: floodplain archaeology and ...

A site at the edge of the floodplain at Chogi Mami, dated to 7500 bp, provides probably the earliest evidence of irrigation canals (Roberts, 1989). Later occupation of the floodplain (6500 bp) took place on levees and allowed the abstraction of water through the levees down onto the flood basins, the edges of which could be used for crops.

Managed floodplains (Chapter 6) - Alluvial Geomorphology

preservation, refining field interpretations of archaeological contexts and identifying changes in the physical landscape through time. Previous editions of this document were compiled in 2004 and 2007 by Gianna Ayala, Matthew Canti, Jen Heathcote, Raimonda Usai and Jane Siddell.

Alluvial Geomorphology: Floodplain Archaeology and ...

Geomorphology Our Geomorphology Division aims to deliver services which will bridge the gap between the archaeological record and the evolving Quaternary landscape, thus creating a direct link between humans and the environment in which they lived.

Geomorphology - Oxford Brookes University

Alluvial Geomorphology Many archaeological sites are buried by alluvium in floodplain and terrace settings. Finding and studying these sites can provide new insights into how river systems evolved throughout the Holocene. This topic has long been a staple of Geomorphology, given the close relationships between peoples and rivers.

Alluvial Geomorphology | The New York State Museum

Alluvial Geomorphology: Floodplain Archaeology and Environmental Change (Cambridge Manuals in Archaeology series) by A. G. Brown. This comprehensive manual is designed to give archaeologists the necessary background knowledge in environmental science required to excavate and analyse archaeological sites by rivers and on floodplains.
