"Eating in the Light of the Moon" is hands down the best book on disordered eating I have yet to read, because it sheds light on the painful struggle with uplifting, inspiring storytelling. Johnston's soft, delicate voice will weave you through tales of distant lands which somehow bring you to the shore of self-discovery.

Put simply, we wake up when it's light and go to bed when it's dark. But with electrical lighting and modern lifestyles, we're now able to control our own wakefulness, and can stay awake and eat late into the evenings. Various studies suggest eating at a time naturally reserved for sleeping could have adverse effects on weight and metabolic health.
