In December 2010, Professor Tim Noakes was introduced to a way of eating that was contrary to everything he had been taught and was accepted as conventional nutrition 'wisdom'. Having observed the benefits of the low-carb, high-fat lifestyle first-hand, and after thorough and intensive research, Noakes enthusiastically revealed his findings to the South African public in 2012.

Lore of Nutrition reads like a real-life John Grisham novel. Our hero, Tim Noakes stumbles into the path of the wrecking ball of nutrition orthodoxy by learning new facts and changing his mind. He shares his new knowledge, and for that act of public service, the nutrition elite cabal of South Africa decide he must be annihilated.

~~Conventional Dietary Beliefs~~  
~~Exploring the "Lore of Nutrition" - Doc's Opinion~~

Lore of Nutrition has it all. And, if you're a cardiologist, the book may read like a Stephen King horror story. However, this time, the horror is real. You'll just have to hope for a happy ending. Of course, Lore of Nutrition is not the first book to challenge accepted medical and scientific dogma. But, it rises above most of them due to its reliance on scientific evidence, its honesty, and bravery.
