Test Bank for Statistics, Data Analysis, and Decision ...

Statistical modeling is the process of applying statistical analysis to a dataset. A statistical model is a mathematical representation (or mathematical model) of observed data. When data analysts apply various statistical models to the data they are investigating, they are able to understand and interpret the information more strategically.

Statistics, Data Analysis & Decision Modeling by James R ...

In a nutshell, statistics is the study of data analysis, whereas management science is the study of model building, optimization, and decision making. In the academic arena these two fields traditionally have been separated, sometimes widely. Indeed, they are often housed in separate academic departments.
