iaid?, abbreviated with iai, is a Japanese martial art that emphasizes being aware and capable of quickly drawing the sword and responding to a sudden attack. Iaido consists of four main components: the smooth, controlled movements of drawing the sword from its scabbard, striking or cutting an opponent, removing blood from the blade, and then replacing the sword in the scabbard. While beginning practitioners of Iaido may start learning with a wooden sword depending on the teaching style of ...

*Iaido - Wikipedia*

The art of sword fighting was made popular due to its numerous appearances in movies, especially from Japanese films where it owes its prominence. Yet despite this, the various sword techniques have also been a great element of the Western world and the medieval period is excellent proof that swordsmanship was practiced in these areas.

A Japanese sword (Japanese: ???, Hepburn: nihontō?) is one of several types of traditionally made swords from Japan. Swords have been made from as early as the Kofun period, though most people generally refer to the curved blades made after the Heian period when speaking of “Japanese swords”. There are many types of Japanese swords that differ by size, shape, field of application and method of manufacture.
